

KRITIKA BERRY

Arlington, VA | +1 (202) 492-6092 | kritika.berry@gwu.edu | [linkedin.com/in/kritikaberry](https://www.linkedin.com/in/kritikaberry)

EDUCATION

Master of Science, Computer Science

The George Washington University

- GPA: **3.57/4**
- Coursework: **Machine Learning, Trustworthy AI**, Design and Analysis of Algorithms

Aug 2025 - May 2027

Washington, DC

Bachelor of Technology, Computer Science and Engineering

Sikkim Manipal Institute of Technology

- GPA: **9.68/10**

Jul 2018 - May 2022

India

PROFESSIONAL EXPERIENCE

Graduate Research Specialist

George Washington Institute of Public Policy

- Cleaned, processed, and standardized large-scale datasets of **100K+ credentials**, job descriptions, and university curricula to enable **data-driven decision-making** for a credential comparison tool.
- Applied **clustering techniques** to group similar credentials, improving match quality and retrieval consistency.
- Developed an interactive **Streamlit dashboard** to visualize clusters, trends, and key parameters, enabling faster insight generation and stakeholder decision-making.
- **Selected as a featured speaker at BadgeSummit 2026** to present complex technical data and research findings to cross-functional stakeholders.

Nov 2025 - June 2026

Washington DC, USA

Senior Software Engineer

Providence

- Designed architecture and deployed backend services for an enterprise chat-based survey platform using **OpenAI API, NLP**, REST APIs, Python, and Azure-hosted services, supporting analytics for **1,000+ employees**.
- Implemented **GenAI and RAG-based agents** for backend accuracy validation, reducing information retrieval time by **90%**.
- Led UAT to ensure production readiness, reducing post-production issues by **30%**.
- Communicated system performance and technical findings to technical and business stakeholders to improve system understanding and adoption.

Sep 2024 - Jul 2025

Hyderabad, India

Service Engineer II

Providence

- Built data-driven solutions integrating multiple systems with a **Python-based automation platform** consolidating **20 DevOps PowerShell workflows**, supporting IT operations and service delivery.

Apr 2024 - Aug 2024

Hyderabad, India

Service Engineer I

Providence

- Managed and monitored **7 production applications** using **Azure DevOps** (CI/CD, Bicep, RBAC, SAST), achieving **95% Availability, Reliability, and Performance (ARP)**.
- Developed backend services for a DevOps chatbot using **.NET Function Apps** and Microsoft Teams integration, automating **100+ pipeline triggers** to streamline IT workflows and improve service efficiency.

Jul 2022 - Mar 2024

Hyderabad, India

Technical Intern

Providence

- Analyzed large-scale ServiceNow ticketing datasets (**250K+ records**) to identify operational trends, and performance issues.
- **Deployed KNN and BERT models** to forecast ticket priorities and deliver automated predictive insights.
- **Built Power BI dashboards** to visualize time-series trends and KPIs, reducing analysis time from 20 hours to **under 10 minutes** and streamlining daily service operations.

Jan 2022 - Jun 2022

Hyderabad, India

SKILLS

Data & Analytics: Python, Pandas, NumPy, SQL, Excel, Power BI, Data Cleaning, Data Analysis, Data Visualization

Machine Learning: Classification, Regression, Clustering, Predictive Modeling, scikit-learn, Model Evaluation (F1-score, RMSE)

Applied AI: LLM Integration, BERT, Agentic AI, NLP, RAG, AI tools (Claude, MS Copilot, Cursor, Kiro, OpenAI)

Cloud & DevOps: Microsoft Azure, CI/CD Pipelines, Infrastructure as Code (Bicep), Azure DevOps, Resource Monitoring

Tools: Git/GitHub, MS Office (Excel, Word, PowerPoint), Visual Studio Code, Postman,

TECHNICAL PROJECTS

Intelligent Support Center AI Agent Platform

- Designed an **AI-assisted customer support operations platform** that turns raw inbound emails and calls into triaged, routed, SLA-tracked tickets and provides volume trends, recurring question topics, and friction points to product and support leaders.

SignConnect – Sign Language Translator (Best Hackathon Project)

- Prototyped a real-time **ASL translation system** using NLP and CNNs with Kaggle databases, achieving **85% accuracy** for healthcare accessibility use cases.

ACHIEVEMENTS

- Secured **first position** at the **Trustworthy AI Hackathon 2026** and developed an easy to use AI incident analysis reproducible notebook with a custom AI agent (Gemini) targeting usage by policy makers.
- Received **Bravo** and **Spot Awards** for exceptional technical readiness and commitment to project delivery at Providence India.
- Recognized “SignConnect”, an accessibility tool for communication between deaf/mute patients and doctors as the **“Best Hackathon Project”** among 24 teams at Providence Global Center.
